

Front End Pharmacy Certification Program at *Walgreens*

The Front End Pharmacy Certification Program at Walgreens offers store leadership and select front end team members a pathway to national pharmacy technician certification.

*** Get skills and experience through a flexible immersive program.**

Reduces training time by 280 hours compared to other certification programs.

This program ensures compliance with state regulations and supports pharmacy operations during high-volume periods.

Benefits of the program

Enables store leadership to be present in the pharmacy AND have the skills needed to coach with a true understanding and experience in pharmacy operations.

Expands the skill-set of those in non-leadership roles who perform pharmacy-related tasks, saving time and training hours.

Ensure that everyone with presence in the pharmacy, is certified.

This program is offered to store leaders and other front end team members in select positions and approved states.
