Software/Computer
Engineering
Internship

Walgreens is looking for a Software/Computer Engineer Intern to join one of the largest initiatives in our company, Pharmacy Renewal. The Walgreens Pharmacy Renewal efforts seek to design and build the largest, most advanced pharmacy infrastructure in the world from the ground up. Empowered to operate as an innovation center, this effort represents one of Walgreens most important programs at both global and local levels. US, UK and Italy based teams will be leveraging the most advanced and exciting technologies to build on Walgreens strategic vision to service the 13,100 plus pharmacy-led, health and wellbeing retail stores. This opportunity will be at our support center in Deerfield, IL.

Some of the highlights of the Software/Computer Engineering internship program are:

- Learn about the organization, build your network and test your skills
- Occurs for 10 weeks over the summer at Walgreens headquarters
- Participate in the cross-functional intern case study competition
- Build skills through professional development sessions
- Manage a project
