# SUPPLEMENTAL MEDICAL PLANS

Supplemental medical plans provide cash payments to help offset the cost of a covered medical event. You pay the full cost of coverage through post-tax payroll deductions. Be sure to consider your anticipated medical needs for the coming year — for example, a major surgery — when deciding if supplemental coverage is right for you.

AvalonBay offers three different types of supplemental medical plans through Aflac:

## Accident Insurance

Accident insurance helps protect you from unexpected financial stress if you or a covered family member has an accident. It supplements your primary medical plan by providing cash benefits in cases of accidental injuries. You can use this money to help pay for medical expenses not paid by your medical plan (such as your deductible or coinsurance) or for anything else (such as everyday living expenses).

## Critical Illness Insurance

When a serious illness strikes, critical illness insurance can provide financial support to help you through a difficult time. It protects against the financial impact of certain illnesses, such as a heart attack, cancer, or stroke.

This plan also includes a Health Screening Benefit, which will provide you with a \$50 benefit per calendar year if you have a covered health screening including an annual physical and age appropriate cancer screenings.

## Hospital Indemnity Insurance

A trip to the hospital can be stressful, and so can the bills. Even with a major medical plan, you may still be responsible for copays, deductibles, and other out-of-pocket costs. The hospital indemnity plan can help offset your share of the cost associated with a covered sickness or accident.

This plan will pay a set amount when you incur certain covered medical expenses. You can use this money to help cover hospital stays, ambulance service, surgery, and certain inpatient or outpatient treatments. The plan pays benefits in addition to any other insurance.

# FINANCIAL WELLNESS PROGRAMS

## 401(k) Retirement Savings Plan

AvalonBay's 401(k) plan, offered through Fidelity, can help you reach your financial goals for retirement using the convenience of payroll deductions.

### Your Contributions

You may contribute up to the IRS limits, which in 2023 are:

- **\$22,500** if you are under age 50
- **\$30,000** if you're age 50 or older

These limits include your before-tax contributions, Roth after-tax contributions, or a combination of both.

### AvalonBay's Contributions

When you save for your retirement, we do, too. AvalonBay matches 50% of your contributions to the plan, on the first 7% you contribute to the plan — that's free money toward your retirement.

Visit [netbenefits.com](https://netbenefits.com) to get started.

## Employee Stock Purchase Plan

Twice a year, AvalonBay provides associates the opportunity to purchase company stock at a 15% discount. The ESPP, offered through Computershare, can help you reach your financial goals and allow you to:

- Purchase AvalonBay stock at a discount — a privilege that is available only to AvalonBay associates. The discount is taken off the lesser of the stock price on the beginning and ending of the purchase period, which means participating associates lock in an even greater discount on the purchase date; and
- Build an ownership stake in the company

There are 2 purchase periods each year: January 1 through June 10 and July 1 through December 10. Associates can enroll during an election period prior to the start of each purchase period and are automatically enrolled in subsequent purchases unless chosen to withdraw from the program.
