

WANT TO INCREASE YOUR EARNING POTENTIAL, CHOOSE YOUR OWN CAREER PATH, AND BUILD YOUR SELF-CONFIDENCE THROUGH **EDUCATION**?

Why apply? Here's what several of your colleagues have to say...

"Working at BAYADA has allowed me to have a job and still have the time to attend

college. Earning a degree in healthcare would allow me to continue helping people in the field of healthcare and human services. I am determined to accomplish this goal. I have been honored to be a part of the BAYADA team and have been privileged to be a recipient of the BAYADA Presidential Scholarship for many years now. The money I have received has helped me to pay for books, tuition and other educational expenses."

—**Watchen Smith**, HHA (DSP)

"I believe that people have unlimited potential when they immerse

themselves into something that they are passionate about. The good that will come from that is immeasurable. With the Presidential Scholarship, I am blessed with the opportunity to seek knowledge. My goal is to continuously integrate newly acquired evidence-based knowledge in my daily practice so that I can assure that my clients' safety, health and wellbeing are protected and improved."

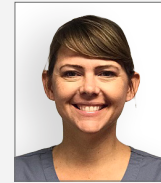

—**Brian Morris**, PT (MAV)

"Becoming an LPN changed my life. I cannot see myself in any other career but I

want to earn more. Acquiring my BSN will help me do just that. The Presidential Scholarship will help me pay for my classes and continue my education. This degree will open more doors for me and help me further my career. After graduating, I would like to continue working for BAYADA and become a clinical manager. Compassion, excellence, and reliability are what I strive to provide to my clients every day and in the future."

—**Nadine Broomall**, LPN (DAN)

"I have been a nurse for 20 years on the same island I grew up on. Most of my clients

are kupuna (elders) and I often know someone from their 'ohana (family) or they know someone from mine. In our connected community we all become 'ohana and with that comes a deep sense of kuleana (responsibility) for those we love. My hope is to be able to better serve our kupuna. Learning new strategies and tools to implement in clients' homes is essential for this, as nursing is an ever-evolving field. I have applied for this scholarship out of love of my community and a desire to serve them well. Mahalo."

—**Emily Ventura**, RN (MAV)

Last year, we awarded more than \$300,000 in scholarships to deserving candidates like you. Individual awards will range up to \$1,500 and are intended for tuition and book reimbursements to further your growth and development. Exclusively for BAYADA field clinicians, monetary awards from the scholarship program can be applied to the class, course, seminar, or training of your choice (including CPR certification courses)!

Requirements:

- Work a minimum of 26 weeks by March 21, 2021
- Submit a completed application by May 14, 2021
- Include two letters of recommendation (one from your client services manager or director, and one from your BAYADA clinical manager, BAYADA client, or coworker)
- Submit a one-page essay describing your educational goals and why you deserve to be awarded a scholarship

Please contact your manager with any questions.

Apply Yourself | Earn a degree. Learn a skill. Take a course.

WE **LOVE** WHAT WE DO
