

Advancing the
world of health

EDGE program

Developing [Technology & Global Services](#)' next generation of innovators

Mission statement: The EDGE program's vision is to empower early-career professionals through immersive learning focused on technology-enabled business solutions within Global Services. Program associates rotate through diverse opportunities working with emerging technologies and applying best practices to solve global business challenges. By pairing executive mentorship with impactful opportunities, the EDGE program offers all the tools associates need to grow professionally as they support BD in serving the global community by *advancing the world of health*.
