

MBA Summer Internship Program

Our culture shapes your experience

At BD, we recognize the importance of attracting MBA talent to drive innovation and performance, and to build our leadership pipeline. As a FORTUNE 500 company and a global leader in the medical technology industry, BD provides MBA recruits with the opportunity to work on critical projects that address some of the world's most compelling problems and to strive to improve human health.

Our need is your opportunity

As BD continues to expand globally, we recognize that accelerating the development of our current and future leaders is crucial. MBA recruits are exposed to rewarding experiences early in their careers that provide a foundation for their future growth and development.

Why join BD?

Business impact

BD's pace of growth and change presents unique business challenges that enable MBAs to make a strategic impact on the Company and on global healthcare.

Support and visibility

BD has a unique and exciting culture of open accessibility to senior leaders and functional experts. Experienced managers and project leaders provide guidance, resources and coaching to support development and professional growth.

MBA Summer Internship Program

At BD, the MBA Summer Internship Program serves as our primary pipeline for engaging and hiring MBA talent. MBA interns influence and drive change through customized projects and assignments critical to the business, enabling the acceleration of their careers, through both personal and professional development.

Program features include:

- 10–12 week assignments in areas such as corporate development, business development, strategic marketing, product management and product development.
- Assignments have been located across the U.S. (CA, IL, NC, NJ, MD and UT).
- Summer intern activities includes networking events, career panels, professional development training, executive roundtables, community leadership events and much more.
- An end-of-summer report out to BD Senior Leadership and a formal performance management process provide both exposure and development to each MBA intern.

Career growth

At BD, MBAs define their career path according to their own personal and professional career goals. A supportive and flexible work environment enables MBAs to explore areas outside of their own functions businesses to ensure a rewarding experience.

Global focus

The highly diversified nature of our businesses and geographies creates diverse experiences that facilitate accelerated development.

Internships are focused in the areas of Marketing, Business Development and Strategy, with key responsibilities such as:

- Business and product development
- Market assessment and strategy development
- Technology assessment and acquisition
- Management and identification of new business opportunities
- Voice-of-the-customer research
- Assessment of brand strength and portfolio value
