**What does it mean  
to be an intern at BD?**

BD's award-winning internship programs offer real-world experience and the chance to work with extraordinary individuals. Interns apply their knowledge to important projects, develop new skills, and make a difference in *advancing the world of health™*.

The goal of BD's Summer Internship Program is to build BD's talent bench for tomorrow through the identification, attraction, engagement and hire of diverse talent for future development program and direct hire roles.

During an intern's 10–12-week internship, they'll get exposure to BD's core businesses and technologies while experiencing our dynamic culture through professional development and leadership opportunities, networking, and social events.

## BD's Summer Internship Program

### We are the makers of possible

As one of the largest global medical technology companies in the world, *Advancing the World of Health™* is our Purpose, and it's no small feat. It takes the imagination and passion of all of us – from the design and engineering, to the manufacturing and the marketing of our billions of MedTech products per year – to look at the impossible and find transformative solutions that turn dreams into possibilities.

Our **Early Talent** recruitment programs and efforts are key strategic initiatives designed to attract and retain highly talented individuals – like yourself – who can help us accomplish our goals and elevate business growth.

## BD's Award-Winning Internship Program
