Applications Accepted:

August 15, 2016-October 2, 2016

Final Selections Made:

November 14, 2016

campus.capitalone.com

CapitalOne®

What to expect

During this one-week program, a small, exceptional group of freshmen and sophomores will be immersed in our startup-minded and innovative culture while exploring and developing the technology and problem solving skills valued by today's top employers. If chosen for this highly selective program, you'll take part in technical and soft-skill training sessions–examples from previous Summits include iOS, Android, Voice Driven Applications, AWS, M.E.A.N. Stack, Hardware, Front End Design and more. The week wraps up with a rigorous hackathon and presentation to Capital One leadership and includes some awesome fun events along the way.

Location

Held at our Clarendon Lab just outside of Washington D.C., the Summit is an awesome opportunity to network with Capital One engineers and other students from top colleges and universities. Capital One will be responsible for all participant travel and accommodations–your job is to learn, challenge yourself, and code side-by-side with our talented engineers!

Qualifications

- 3.0 GPA or Higher
- Technical and/or quantitative major: Engineering, Computer Science, Computer Engineering, Information Technology, Computer Information Systems, etc.
- Strong analytical, quantitative, problem-solving, conceptual skills and coding ability.
- Strong interpersonal, leadership and communication skills.

How to apply
