

Join Cedars-Sinai Cancer

World-class cancer care takes faculty like you

Join the Department of Hematology and Cellular Therapy

Join our cancer enterprise at Cedars-Sinai Cancer during a transformational period of growth and help us achieve our goal of becoming a top tier nationally recognized Cancer Center. Ranked by US News & World Report as the #7 Best Hospital in Cancer in 2020-2021, Cedars-Sinai Cancer is seeking a Staff Physician I or II who will focus on multiple myeloma and amyloidosis and the development of clinical trials for the treatment of these diseases.

Cedars-Sinai Cancer is recruiting Physician Investigators to develop both investigator – initiated and industry – partnered clinical trials at the Cedars-Sinai Medical Center and will collaborate with basic scientists and translational researchers at Cedars-Sinai in the development of innovative therapies for patients with multiple myeloma and amyloidosis. The Staff Physician will collaborate with the Director of the Multiple Myeloma and Amyloidosis Program along with other faculty within the Division of Hematology and Cellular Therapy, the Cedars-Sinai Cancer, and participate intensely in educational, research, and community outreach and engagement activities that are in alignment with departmental/divisional and Cedars-Sinai Cancer priorities.

Are you right for this role? A successful candidate has:

- an interest and success in multiple myeloma and amyloidosis
- demonstrated expertise in scientific research
- an ability to independently design and execute creative, high-quality clinical trials in a healthcare setting
- a proven track record of peer reviewed extramural funding
- an extensive publication record in peer reviewed journals
- a demonstrated ability to work with a diverse group of colleagues, organizations and leaders, and
- a track record of high-quality teaching and mentoring at the graduate level

Interested candidates should send their CV, a cover letter as well as names of three references to Dr. John Chute c/o AcademicRecruiting@cshs.org.

Position Requirements:

- MD degree required plus 5 years of relevant experience
- Board Certification in Internal Medicine and Board certification in the subspecialty of Hematology and/or Medical Oncology.
- Published author of peer-reviewed articles and/or proven abilities to serve as principal or co-principal investigator.
- A track record of excellence in clinical research, teaching, patient care, and administration.
- Excellent interpersonal, organizational, communication, and mentorship skills
- A collaborative style that fosters and supports teamwork and innovation

About Cedars-Sinai Cancer

Ranked by **US News & World Report** as the **#7 Best Hospital in Cancer Nationally and #1 in California in 2020-2021**, the Cedars-Sinai Cancer program sees over 4800 new cases of cancer per year and is part of the Cedars-Sinai Health System, a rapidly expanding vertically integrated health system with practices located in Southern California, including Tower Hematology-Oncology, The Angeles Clinic and Research Institute, Cedars-Sinai Valley Oncology Medical Group, Cedars-Sinai Marina del Rey hospital, Hunt Cancer Institute at Torrance Memorial, and Cedars-Sinai Medical Center.

Cedars-Sinai Cancer continues to pursue excellence with plans to greatly expand and sharpen the focus of its basic and translational research programs and its studies of cancer in the context of lifestyle/metabolic factors, with focus on improving cancer outcomes and helping to change behaviors that encourage cancer survivorship.

Academic Research

Along with caring for patients, Cedars-Sinai is a hub for biomedical research and a top 10 academic medical center for NIH funding with over \$200M in extramural research grant funding. As the largest academic medical center in the western United States,

Cedars-Sinai is also training the next generation of physicians, researchers, and allied health professionals. [Physicians and scientists at Cedars-Sinai are actively engaged in translational research to bring medical advancements directly from the laboratory to the bedside.](#)

Community Outreach

[A commitment to meeting the community's health needs](#) has been a defining quality of Cedars-Sinai since the beginning - from the opening of the 12-bed Kaspare Cohn Hospital in Angeleno Heights in 1902 to what is now a world-renowned, nonprofit academic medical center with 890 licensed beds.

About Cedars-Sinai

Ranked by **US News & World Report** as the **#7 Best Hospital in 2020-2021**, Cedars-Sinai is a leader in providing high-quality healthcare encompassing primary care, specialized medicine and research. Since 1902, Cedars-Sinai has evolved to meet the needs of one of the most diverse regions in the nation, setting standards in quality and innovative patient care, research, teaching and community service. Today, Cedars-Sinai is known for its national leadership in transforming healthcare for the benefit of patients. Cedars-Sinai impacts the future of healthcare by developing new approaches to treatment and educating tomorrow's health professionals. Additionally, Cedars-Sinai demonstrates a commitment to the community through programs that improve the health of its most vulnerable residents.
