

Medical Genetics with Leadership Positions available, Cedars-Sinai Cancer

Join our cancer enterprise at Cedars-Sinai Cancer during a transformational period of growth and help us achieve our goal of becoming a top-tier nationally recognized Cancer Center.

We seek a Medical Geneticist or other cancer specialist (e.g. an Oncologist, Gastroenterologist...etc.) with expertise in genetics ready to drive clinical risk assessments and research in cancer genetics at Cedars-Sinai Cancer during an exciting period of growth.

Are you right for this role? A successful candidate has a:

- training in clinical genetics and genomics or other related oncology specialties with an interest in medical genetics
- academic clinical/research expertise in cancer genetics and genomics
- proven track record of peer-reviewed relevant extramural funding,
- successful track record of developing innovative research programs, and
- national or international prominence in genetics research, with outstanding peer-reviewed publications and proven abilities as Principal Investigator and mentor.

Position Requirements:

- A Medical Degree (or equivalent degree from an accredited medical school).
- Board Certification in American Board of Medical Genetics and Genomics or evidence of acquired expertise in cancer genetics.
- A published author of peer-reviewed articles and/or proven abilities to serve as principal or co-principal investigator.
- A track record of excellence in research and patient care.

Interested applicants should submit: 1. A curriculum vitae; 2. Cover letter; 3. A diversity & inclusion statement describing your past contributions to diversity, equity, and inclusion and your future plans for continuing these efforts (two pages or less). Please submit to Dr. Karen Reckamp, Cedars-Sinai Cancer Director c/o Academic.Recruiting@cshs.org

About Cedars-Sinai Cancer

Ranked by **US News & World Report** as the **#9 Best Hospital in Cancer Nationally in 2021-2022**, the Cedars-Sinai Cancer program sees over 4800 new cases of cancer per year and is part of the Cedars-Sinai Health System, a rapidly expanding vertically integrated health system with practices located in Southern California.

Academic Research

Cedars-Sinai is a hub for biomedical research and a top 10 academic medical center for NIH funding with over \$200M in extramural research grant funding. The largest academic medical center in the western United States, Cedars-Sinai also trains the next generation of physicians, researchers, and allied health professionals.

About Cedars-Sinai
