

Established Prostate Cancer Scientist - Faculty Position

Cedars-Sinai is seeking to recruit an established Prostate Cancer Research Scientist. The faculty member will participate in the advancement of our existing comprehensive translational research program focusing on the pathophysiology, prevention, detection, and treatment of prostate cancer. Our group has established a high-volume, internationally recognized program that features a collection of highly integrated basic and clinical experts across the spectrum of expertise who work together to develop new research projects and clinical studies. Faculty appointment will be at Cedars-Sinai Medical Center and rank will be commensurate with experience.

Candidates should send their CV and a cover letter to Dr. Dan Theodorescu, Cedars-Sinai Cancer Director c/o AcademicRecruiting@cshs.org.

Role Responsibilities:

- Contribute to the advancement of a comprehensive research program conducting basic, translational, clinical, and prevention research in prostate cancer.
- Oversee the development of a program and growth of translational research in Urologic Oncology.
- Work collaboratively with oncology investigators in the development of research, clinical, and educational programs.
- Be responsible for identifying, promoting, and mentoring young investigators in research.
- Develop and obtain peer-reviewed, federally-funded research (basic, translational, population, health services areas and/or clinical trials) that advances the cancer center's strategic plan.
- Work to increase research funding from federal sponsors.

Position Requirements:

- PhD or MD/PhD or equivalent from an accredited school and 5 or more years of independent, relevant experience
- International prominence in prostate cancer research with publication record in high impact peer reviewed journals.
- Proven track record and active of peer-reviewed prostate cancer relevant extramural federal funding as a principal investigator on an R01 or equivalent grant.

About Cedars-Sinai Cancer

Ranked by **US News & World Report** as the **#9 Best Hospital in Cancer and #7 in Urology Nationally in 2021-2022**, the Cedars-Sinai Cancer program sees over 4800 new cases of cancer per year and is part of the Cedars-Sinai Health System, a rapidly expanding vertically integrated health system with practices located in Southern California.

Academic Research

Cedars-Sinai is a hub for biomedical research and a top 10 academic medical center for NIH funding with over \$200M in extramural research grant funding. The largest academic medical center in the western United States, Cedars-Sinai also trains the next generation of physicians, researchers, and allied health professionals.

About Cedars-Sinai

Ranked by **US News & World Report** as the **#6 Best Hospital in 2021-2022**, Cedars-Sinai is a leader in providing high-quality healthcare encompassing primary care, specialized medicine and research.
