Get to know your interviewers

Here's a rundown of who's who on your interview team:

- **Recruiters:** Your guide and go-to resource through the entire interview process
- **Hiring leads:** NetApp leaders ready to answer your role-specific questions and learn more about your skills and capabilities
- **Other team members:** NetApp employees you may work and collaborate with day-to-day

Peek inside the interview format

Here's how a typical NetApp interview process flows from start to finish:

- We'll share **role details and specifics**, including alignment to NetApp priorities, goals, and expectations
- You'll answer questions about how your **skills and experience** relate to **the role and NetApp values**
- You'll complete a **coding challenge**, if applicable
- We'll leave time to **answer your questions** about the role or working at NetApp

Prep your path to success

Want to ace your interview? Here are our top tips to prepare:

- Match **your skills and qualifications** with the **role requirements** listed on the job description
- Check out **your interviewer's [LinkedIn profile](#)** for shared interests or connections
- Review **common interview questions** and read your responses out loud (or to a friend or family member)
- Get familiar with **what's new** at NetApp through **[LifeAtNetApp](#)** and **[NetApp TV](#)**
- Don't forget to **be yourself**. We want you to be curious and bring your authentic self to the discussion

Answer questions like a STAR

Answering questions using the STAR format can help structure your responses

- **Situation:** Set the scene by sharing relevant details about the context and challenges faced
- **Task:** Describe your specific role in the situation and what was expected of you
- **Action:** Outline the precise steps you took to address the situation or achieve the intended result
- **Result:** Show off the outcomes achieved explaining the impact your actions had

Master the virtual interview

Is your interview virtual? Here's how to get (Zoom) camera ready:

- Choose a well-lit interview space
- Opt for a clean, uncluttered background or a virtual backdrop
- Eliminate distractions, notifications, and outside interruptions as much as possible
- Allocate extra time for any software issues or updates
