

# OUR CULTURAL BELIEFS

At Take Care Health Systems, we're on a mission to help our patients and employees get, stay and live well. To do that, we're making health and happiness more accessible to more people every day. At Take Care Health Systems, we look to embrace the following seven core cultural Walgreens beliefs every day:

## BE ONE

I know what Walgreens must deliver, and I align my daily actions with others to make it happen.

## BE REAL

I am open, honest and respectful in my words and actions every day.

## BE BOLD

I demonstrate courage in everything I do to create the future of Walgreens.

## BUILD TRUST

I listen, seek to understand and always assume positive intent.

## LOVE CUSTOMERS

I engage with customers and passionately innovate to exceed their needs.

## OWN IT

I constantly ask, "What else can I do to achieve our results?" and refuse to blame others.

## LIVE IT

I help people get, stay and live well.
