Safety Engineer

The U.S. Department of Energy at Brookhaven National Laboratory currently has an open position available for a professional safety engineer expert.

This is a Federal Government position with the main functions being:

- Manage and administer the Department of Energy (DOE) prime contract for the safe, secure, effective, and efficient operation of Brookhaven National Laboratory (BNL) and to support the diverse responsibilities.
- Serve as the technical authority with all Safety Area programs focusing on construction, electrical, fire, and industrial safety.
- Provide guidance and oversight ensuring maintenance, operations, and construction projects are conducted to the (DOE) regulations.
- Provide oversight of the Industrial Hygiene and Occupational Medicine Programs.
- Performs field oversight of construction, maintenance, and operation activities.
- Provide assistance in the oversight of Integrated Safety Management and Work Planning and Control Programs.

The position is being advertised as a General Schedule (GS) 13, with promotion potential to 14.

The applications must be submitted through USAJobs no later than 4/1/22 and can be found at the following weblink: [https://www.usajobs.gov/job/643620600](https://www.usajobs.gov/job/643620600)
