The Health System
CommonSpirit Health™ envisions a healthier future for all – inspired by faith, driven by innovation, and powered by humanity. CommonSpirit Health™

The Medical Center
Dignity Health Mercy Medical Center Redding (DHMMCR) is a 266-bed Level II Trauma Center, acute care hospital that, combined with a critical access hospital in Mount Shasta and a community hospital in Red Bluff, forms the Dignity Health North State region. We serve a culturally diverse patient population. Our medical center is community based and is a local center for cardiac procedures, regional cancer services, and contains a Level III NICU. We are affiliated with University of the Pacific, Simpson University, and the University of California - Davis and serve as a training site for pharmacy IPPE/APPE students, nursing students, and a family medicine residency.

The Town
Redding, California Located 160 miles North of Sacramento, CA and 150 miles South of Medford, OR; Redding has a population of approximately 100,000. Redding is located on the Sacramento River and near Mt. Shasta and Lassen Volcanic National Park, numerous outdoor activities abound. The city also serves as the medical hub of far northern California and serves a greater population of 300,000.

The Residency Program
The Residency in Pharmacy at DHMMCR is an approximately 55-week experiential learning process designed to give the resident comprehensive training in providing pharmaceutical care in an integrated health system. DHMMCR provides a learning experience that blends core rotations with longitudinal rotations. Core rotations provide the resident a learning experience that integrates multiple services within a single core. By blending the core rotation experience with a longitudinal rotation, this structure offers a realistic learning opportunity that teaches time management skills.

Application Requirements
Completed or working towards a Doctor of Pharmacy degree from a United States of America accredited college of pharmacy

Pursuant to federal requirements, employment is conditioned upon authorization to work in the United States. Dignity Health does not offer visa sponsorship for this position. Only permanent residents (green card holders) or citizens of the United States of America will be considered

Eligible for licensure to practice pharmacy in the State of California

Participate in the ASHP Residency Matching Program

Curriculum Vitae - submitted to PhORCAS

An essay stating your reasons for seeking residency
- submitted to PhORCAS

Official transcripts - submitted to PhORCAS

Three letters of recommendation from health professionals who can attest to your abilities and aptitudes - submitted to PhORCAS

Residency Program Timeline: 55-weeks

Staffing: Approximately every other weekend.
Benefits: Include medical, dental, vision.
Paid Time Off: For each 80-hour pay-period, the PGY-1 resident will accrue PTO.

Professional Meetings: The PGY-1 residents are required to attend the CSHP Seminar and ASHP Clinical Midyear Meeting (as applicable).

Licensure: The PGY-1 resident is required to take the NAPLEX and CPJE (California Pharmacy Jurisprudence Examination). The PGY-1 resident should take the exams as early as possible and preferably before the start of the residency program. CA intern license or pharmacist license is required before the start of the program. Pharmacists licensure is required by the program's calculated date to ensure residents spend two-thirds of residency as a licensed pharmacist.

Core Rotations:
- Orientation
- Pharmacy Practice
- Pharmacy Informatics
- Internal Medicine
- Critical Care
- Infectious Disease
- Emergency Medicine
- Night Shift Services
- Oncology

Longitudinal Rotations:
- Administrative
- Residency Research Project
- Staffing
