

The future of health care leadership starts here.

CommonSpirit Health is the largest faith based not-for-profit health system in the United States committed to building healthier communities, advocating for those who are poor and vulnerable, and innovating how and where healing can happen. With corporate offices located in Chicago, IL and care centers spanning 21 states, CommonSpirit Health is here to serve the common good.

ITD Track Rotation Structure

The CommonSpirit Health Administrative Fellowship Information Technology and Digital (ITD) Track will provide fellows with a broad range of experiences in information technology within an integrated health care system. Fellows will have the option to pursue two tracks and will gain valuable experience across the function of Digital and Information Technology.

- Digital Leadership: Fellows will rotate through Digital, Data Analytics and Applications departments of our national healthcare system
 - Technology Leadership: Fellows will rotate through Infrastructure, Cyber Security, and Product Management Systems that support our national healthcare system
- At the completion of the administrative fellowship, ITD Track fellows will have gained leadership and technical experience to transition into execution of strategic ITD initiatives focused on improving healthcare for all.

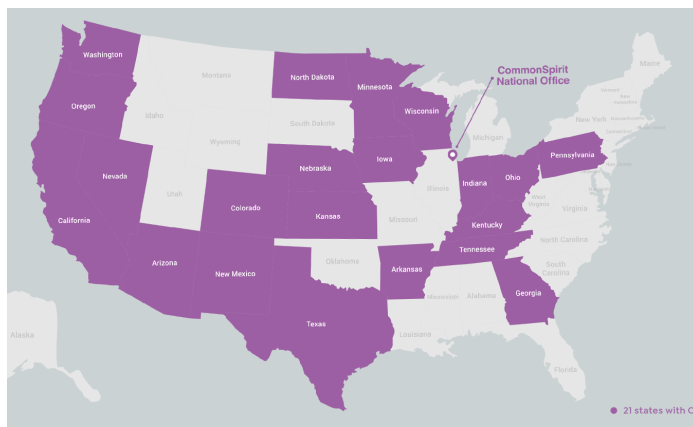

Administrative Fellowship Information Technology and Digital (ITD) Track

Locations

The 2022-2023 CommonSpirit Health Fellowship will be hosting two ITD Track Fellows, who will have the option to choose between the following corporate office location for the duration of their program:

- Denver, CO
- Phoenix, AZ

Eligibility

At the time of their application, candidates must either be currently enrolled in their last year of an accredited graduate program, will have completed upon conclusion of fellowship, or have recently completed* one of the below degrees from an accredited university:

- Master of Science in Computer Engineering
- Master of Science in Computer Science
- Master of Science in Information Technology
- Master of Science in Data Science
- Master of Science in Artificial Intelligence
- Master of Science in Health Informatics
- Master of Science in Cybersecurity
- Or equivalent degree from an accredited graduate program

Successful candidates will demonstrate knowledge in the field of Software Development, Data Science, Cyber Security, Cloud Operations, Infrastructure support, Artificial Intelligence, or Digital Technologies. Furthermore successful candidates should demonstrate interest in supporting the information technology needs of an integrated healthcare delivery system, a passion for the mission of CommonSpirit Health, and a commitment to being a provider of humankindness.

*recently completed: candidate has completed an applicable Master's degree within 1-2 years from the time of application.

Application Process and Info Sessions
