

YOUR OPPORTUNITY IS HERE

STEMAspire

Develop your career with us.

We understand that diversity and equality are instrumental to enrich company interactions and bring different views at work. A mentorship at Dell is not just about acquiring technical skills or knowledge, is about human interactions that leverage your potential.

We are aiming to find female talent in STEM (Science, Technology, Engineering and Mathematics) who are willing to challenge themselves to grow. In our program you'll have the opportunity to have mentoring sessions in 1x1 format with mentors from our team who will be sharing with you best practices and guidance taking in considerations your interest and needs.

At Dell you'll find the support you need and the challenges you thrive to become the best version of you.

Welcome to a world of endless possibilities.

Ready for a new challenge?

Benefits of the program
