

FM GLOBAL CORPORATE SOCIAL RESPONSIBILITY

WORKING TOGETHER WITH **CLIENTS** AND **EMPLOYEES** FOR LONG TERM SOCIAL, ECONOMIC AND ENVIRONMENTAL WELLBEING

Socially:

At FM Global we invest in communities where we live and work to help maintain their social wellbeing. We strive to give back to our employees, encourage volunteering, advocate for diversity and inclusion, and share our earnings with the underprivileged.

Economically:

We believe that the majority of loss is preventable. We partner with our clients to help safeguard their properties from loss and improve their resiliency while supporting the surrounding economies and economic production.

Environmentally:

We are committed to helping our planet for future generations. We conduct our business with consideration for the environment and take active steps to preserve our natural habitats.
