

Improve Health and Improve Lives

Working at LabCorp, you'll discover many ways to make a difference. We are a purpose-driven company and the life-saving work you do matters to millions of patients around the world. Whether you're interested in scientific innovation or sales, phlebotomy or IT, you can build a successful career that can only be described as amazing.

What an exciting time to be on the front lines of healthcare. Our patients have access to the most advanced testing that supports improved outcomes and better quality of life. We are humbled and honored to lead the charge for marked improvement in our patients' lives.

What We Offer

Our internship program is a paid 12-week program designed to give students a range of exposure and knowledge in a short amount of time. It extends learning far beyond the campus with meaningful, specialized practical experience, mentoring and multiple professional development workshops. Each aspect of the program is designed to help students prepare for a thriving career in our industry.

Join Us in Doing Work That Makes a Difference

An internship at LabCorp is an experience like no other. We offer real work assignments that complement your education, are challenging and deliver valuable outcomes to the organization. Here, you will be surrounded by experts in healthcare diagnostics, individuals who sit on federal committees and officers in national societies. Working at a leading global life sciences company means countless career opportunities and working alongside renowned specialists and top talent. More importantly, it's a chance to truly make an impact in the world.

Find an internship opportunity today.
