

The Advanced Manufacturing Technician Apprenticeship Program is a six week certification program designed to certify candidates with the skills necessary to build electronics hardware and develop an exciting career in space operations.

Participants are paid and offered benefits during the six week training program. Candidates who successfully complete the program may be offered full time employment at Lockheed Martin.

The curriculum includes solder certification, cable harnessing and conformal coating training. Training takes place on the Waterton Campus and is taught by Lockheed Martin Space instructors.

Stay Tuned for the announcement of our next Info Session
