

>>> Get the best of both worlds at Parexel FSP

A clinical operations or biometrics role with Parexel Functional Service Provision (FSP) offers you both Clinical Research Organisation (CRO) and sponsor experience in one rewarding career opportunity. You will benefit from career progression and professional growth within one of the world's leading CROs while gaining experience as an integrated member of a biopharmaceutical client's team.

About Parexel FSP

Parexel is one of the world's leading global CROs, providing the clinical development capabilities and integrated consulting expertise it takes to streamline development every step of the way – faster and more cost-effectively.

As part of Parexel, Parexel FSP works in strategic partnership with biopharmaceutical companies and provides qualified and talented professionals through functional outsourcing models to support the development and delivery of new therapies. At Parexel FSP, we are proud of our top 3 client relationship rating and our world-class network of experts who help scale clinical trials, accelerate timelines, and maximize efficiency throughout development.

»» I appreciate the opportunity to be able to foster an environment where everyone has a chance to grow into strong and ethical leaders, contribute to our company's vision, and spread a positive culture.

Yun Hardiman - Vice President, Parexel FSP
